PROFILE SUMMARY

Computer Science Engineering student specializing in **Cyber Security** with strong skills in **Python**, **SQL**, and full-stack web development. Experienced in building scalable applications using **React**, **FastAPI**, and **MySQL**, developing REST APIs, implementing authentication systems, and deploying web applications. Completed a Frontend Development internship focused on responsive UI development and modern web technologies. Passionate about software engineering, algorithms, and problem solving, seeking a **Software Development Internship** to build impactful and scalable software solutions.

EDUCATION

B.E. Computer Science and Engineering (Cyber Security)

2024 – 2028

Sri Sairam Engineering College, Chennai

CGPA: 8.98 / 10

PROJECTS

StreakForge – LeetCode Streak Reminder Web Application

Technologies: React, FastAPI, JWT Authentication, SMTP, REST APIs

Live Demo: <https://streak-forge-33fu.vercel.app>

GitHub: <https://github.com/Hariprasad-1809/StreakForge>

- Developed a full-stack LeetCode streak tracking application using React.js and FastAPI, enabling automated daily practice monitoring with secure JWT-based authentication.
- Designed and implemented RESTful APIs with FastAPI, integrating Brevo SMTP services to deliver automated email reminders and efficiently manage user activity.
- Built and deployed a responsive, cloud-hosted application on Vercel, ensuring seamless user experience, scalability, and reliable performance.

Lumina – Premium E-Commerce Web Application

Technologies: React 19, Vite, Tailwind CSS, React Router DOM, Context API, LocalStorage, FakeStoreAPI

Live Demo: <https://e-commerce-lumina.vercel.app/>

GitHub: <https://github.com/Hariprasad-1809/e-commerce-lumina>

- Developed a responsive e-commerce web application using React, Vite, and Tailwind CSS with dynamic product catalog, advanced search, filtering, and sorting powered by FakeStoreAPI.
- Implemented shopping cart, mock authentication, protected routes, and order management using React Context API and LocalStorage, ensuring persistent user sessions and seamless state management.
- Designed a modern, mobile-friendly user interface and deployed the application on Vercel, delivering a scalable shopping experience with profile, checkout, FAQ, and contact modules.

EXPERIENCE

Front-End Development Intern

Dec 2025 – Jan 2026

Sri Sairam Techno Incubation Center

- Developed responsive web interfaces using HTML, CSS, JavaScript, and React.js.
- Applied component-based UI development concepts using the React framework.
- Assisted in building interactive and user-friendly web pages for web applications.
- Gained practical experience in frontend development workflow, debugging, and UI design.

TECHNICAL SKILLS

- Languages:** Python, C, Java, SQL
- Frontend Development:** HTML, CSS, JavaScript, React
- Backend:** FastAPI, REST API Development, JWT Authentication
- Databases:** MySQL, SQL*Plus
- Tools:** Git, GitHub, VS Code, VMware
- Core Concepts:** Object-Oriented Programming (OOP), Data Structures, Problem Solving

CERTIFICATIONS

- Data Science for Engineers
- Python for Data Science
- The Joy of Computing using Python

ACHIEVEMENTS

- Secured **2nd Place** in the **PredictG Machine Learning Event** at **Talos 5.0 National Level Symposium**, Chennai Institute of Technology (CIT), winning a cash prize of **2000**.
